

SUBCULT

Open systems for culture, coordination, and strange futures.

> status verified 2026-07-10

A WORLDVIEW WITH OUTPUTS

SUBCULT is an underground creative-technical collective building open, inspectable software, media systems, research tools, and participatory experiments. Projects have different lifecycles and contribution paths. The shared commitment is to agency, legibility, memory, and alternatives to extractive platform defaults.

WHAT WE BUILD

SOFTWARE

Self-hosted systems, utilities, alternative interfaces, and operational tools.

MEDIA SYSTEMS

Discovery, archives, transcripts, production pipelines, and broadcast experiments.

PARTICIPATORY FORMATS

Structured spaces for play, argument, performance, and collective attention.

RESEARCH AND DOCUMENTATION

System maps, public working notes, and memory that can outlive a feed.

VERIFIED SIGNALS

- [+] A live public site with a project catalog, zine, memo, and support route
- [+] Public repositories with visible commit and issue history
- [+] Multiple project lifecycles represented: active, seed, paused, and archive
- [+] A documented funding policy and public rights boundaries

Repository visibility is evidence that work exists—not a promise of readiness, maintenance, or availability.

\$

- > Project collaboration
- > Grant or public-interest funding
- > Disclosed sponsorship
- > Services, commissions, or licensing
- > Aligned investment under explicit terms

[FUNDING]

TERMS BEFORE THEATER

SUBCULT may use patron support, earned revenue, grants, sponsorships, partnerships, or aligned investment. Every arrangement is judged by what it funds, controls, can see, and leaves behind.

[BOUNDARY]

NO HIDDEN CONTROL

Funding does not silently confer editorial control, user-data access, community representation, unrelated intellectual property, or governance beyond the written agreement.

START WITH THE SCOPE

A useful inquiry names the project, proposed exchange, budget, timeline, required rights, and concrete public or operational outcome.

PARTNERSHIP ROUTES

FUNDING POLICY
